

PROCESSES

ACTIVITIES

Engaging vulnerable community members where they already have relationships

Providing one door access and referrals between houses to courses and partnering for local delivery

Building a seamless continuum from lifelong learning to learning for earning

Starting where community members are at and supporting transition

Connecting community with the right activity and/or training at the right time

Forming relationships with local organisations that already have relationships with vulnerable community members to achieve referrals to Neighbourhood houses:

- Community services
- Health services
- Mental health services
- Local government
- Job Actives
- Libraries
- And others

Establishing processes between Neighbourhood Houses to share course delivery and enable community members to find the activity or course that best suits their needs without needing to duplicate effort.

Connecting ...

Initiating community development activities, providing an inclusive environment for all population groups within a community.

Learning for leisure ...

Providing a program of learning for life for leisure or other outcomes such as small business development.

Learning for earning ...

Enabling community members to explore their options for learning and earning and plan next steps in pre-accredited or accredited training.

Options that are:

- Inclusive
- Enable community to engage and participate.

Options such as:

- Work experience (volunteering, placement, work experience).
- Pre Accredited and Accredited training.
- Assistance to support existing business
- Assistance to create new businesses (NEIS).
